The Serious Organised Crime Agency (SOCA) is an Executive Non-Departmental Public Body sponsored by, but operationally independent from, the Home Office.

The Agency has been formed from the amalgamation of the National Crime Squad (NCS), National Criminal Intelligence Service (NCIS), that part of HM Revenue and Customs (HMRC) dealing with drug trafficking and associated criminal finance and a part of UK Immigration dealing with organised immigration crime (UKIS).

SOCA is an intelligence-led agency with law enforcement powers and harm reduction responsibilities. Harm in this context is the damage caused to people and communities by serious organised crime.

The Home Secretary may set SOCA strategic priorities and will judge the success of its efforts. Within that framework, SOCA plans its priorities, including how it will exercise the functions given to it by statute, and what performance measures it will adopt.

Interpol is the world’s largest international police organization, with 186 member countries. Created in 1923, it facilitates cross-border police co-operation, and supports and assists all organizations, authorities and services whose mission is to prevent or combat international crime.

Interpol aims to facilitate international police co-operation even where diplomatic relations do not exist between particular countries. Action is taken within the limits of existing laws in different countries and in the spirit of the Universal Declaration of Human Rights. Interpol’s constitution prohibits “any intervention or activities of a political, military, religious or racial character.”
